# Transparency, Opendata ... Whats the difference?

... fostering **innovation** on the internet era.

Adopta una playa

herding a bunch of data for concerning citizens about the environment and our beaches

PRTR wastes on water

# PRTR reports [(EEA)
waste releases on water for spain
mdb file used

Quality on bathing water

Nayade project (spain)
web-scrapped data from official sources
eea state of bathing water helped too

Beaches info

MagrAMA official site (spain)
web-scrapped data from official sources
eea state of bathing water helped too

TOC is not enough

No point of wastes disposal on water

Lack of updated data

Gov's

Companies

Citizens, NGO's

R&D

Efficient coordinated policies

**QA Mark
CSR
MK Leads**

Social environ. monitoring

Agile Research, Hypothesis Validation

Open Data

⭐ available on the web
⭐⭐ structured data
⭐⭐⭐ non-propietary formats
⭐⭐⭐⭐ uri's to denote things
⭐⭐⭐⭐⭐ link data to other sources

Big Data

⭐volume
⭐variety
⭐velocity
⭐veracity
⭐value

Open-water governance
lessons learnt from #adoptaunaplaya project
